

How our Pod Syndicate helps you to refer others and reduce your Internet cost.

A simple strategy using our Powerball concept to help you refer others and to give you a strong understanding on how it all works. This concept gives people a reason to move there NBN services over to www.05com.com.au or www.veteransnet.com.au

★ Two Core Missions

🎯 Key Mission:

Chase a major Powerball win using structured Pod shares and strategic Syndicate options.

📁 Main Mission:

Reduce your NBN bill through referral rewards and Pod share offsets — making your internet cheaper every month.

Together, these missions create something **no other NBN provider offers**:

💣 Internet that costs less every month — and might pay out big.

🔒 Keeping Our Options Open as Your Pod Grows

Your Pod currently holds **25 shares**, and **you hold one of them**. That means you're part of a structured, strategic Syndicate with a clear goal:

★ Grow the Pod → Grow the balance → Grow the opportunities → Grow the winnings.

As your Pod balance increases, you unlock **multiple strategic pathways** — each designed to strengthen your position and maximise your potential returns.

We keep our options open

As your Pod grows, we can choose:

- To run **solo**, giving us a clean, single-pod win **OR**
- To join a **larger syndicate**, increasing the chance of a major payout
- **Offset** Your Share Against Your Monthly NBN Fee (Smart Savings Strategy)

Flexible financial advantage. Choose to offset your Pod share value against your monthly NBN bill, reducing your cost while still staying in the Syndicate.

🎯 Why These Options Matter

Your Pod isn't locked into one path. It's designed to adapt, grow, and choose the best strategy based on:

- Pod balance / Weekly wins / Member preferences / Long-term goals Referral growth
- NBN bill-offset opportunities

This flexibility is what makes your Syndicate model stronger than any traditional lottery group.
